THE PROJECT

Our vision

The project addresses young people's *capacity for action* and understands their *empowerment as their capacity* to exert a bigger control on what matters to them, their circle or the community/ies they identify with.

For *youth workers*, the project represents an opportunity to further their professionalization and to acquire knowledge about Project-based Learning.

The project objectives are to:

- Promote youth-centred pedagogical approaches in non-formal education and youth organisations
 - Empower young people in terms of capacity for action
-
